Capability Statement

ABOUT US

We are a world class Fire Safety Solutions and Training design, development and delivery company.

Fire and Safety Solutions and Training has been our forte for over 20 years, and we actively utilise our knowledge, insight and expertise to design and deliver high quality Fire Safety solutions to the private and public sectors, supporting organisations of all sizes, throughout the UK and overseas.

WHY CUSTOMERS CHOOSE WFST

Our Approach

We are collaborative and co-operative in our partnership approach. We invest effort in purposeful communication and in forming trusting and highly engaging customer relationships.

We have open, honest and challenging, but constructive, dialogue, sharing our expert knowledge, breadth and depth of practical experience and insight on the specific fire safety challenges faced by our customer organisations. This informs upon effective, practical and impactful solution strategies.

OUR VALUE AND BENEFIT

Expertise, Unique High Quality Standards, Course Collateral

- ✓ We are a leading Fire Safety Consultancy.
- ✓ We operate throughout the UK.
- ✓ Our Design and Development teams, trainers and assessors are highly competent. They have, for example, designed and implemented training systems for the military and MOD, Local Authorities and Fire and Rescue Services. As a result, WFST provide the most current, always up to date, fire risk assessment, fire safety training and fire service courses available.
- ✓ Harnessing this capability and competence, we are the only company to design, develop and provide Fire Safety Courses and Fire & Rescue service training specially designed in line with the **Defence Systems Approach to Training (DSAT)**. This best practice model ensures and assures that our training programmes are designed and aligned to this approved and rigorously tested Gold Standard. Hence, our bespoke DSAT Fire Safety and Fire Awareness Training enables your business in turn to deliver the highest standard of fire safety. Not only compliant with the Regulatory Reform (Fire Safety) Order 2005 (RRO), but going above and beyond the latest government legislation.
- ✓ We are an approved SFJ Awards Training Centre.
- ✓ Our Course Collateral: With 20 years of expertise and successful training delivery within the UK fire services, we offer a complete range of bespoke and professional Fire Safety consultancy and courses, so customers and their employees are knowledgeable, prepared, confident and capable, should the worst occur.

OUR SERVICES

Our Fire Safety consultancy offers a range of professional services across legislation, regulation and compliance policy, process and systems, e.g. incorporating Fire Risk Assessments; Fire Safety inspections; reviewing and assuring customer's understanding of legislation, regulations, compliance, Risk Management and mitigation, and the protection of lives and property.

We exchange our knowledge and insight about Fire Safety, risks, trends and priorities, best practice developments and learning and training solutions.

Our experts offer practical knowledge and experience of operational delivery expertise, which informs upon our strategic and operational advice as well as people development. We believe we have a key and beneficial role to play, with our consultancy and learning interventions, expanding competence, sharing knowledge and making a difference in Fire Safety.

In the context of our learning and development services, we work with our customers to discover and design the best possible learning and training solution to requirements, so that they can benefit from the best possible – and any regulatory required - outcomes. Our learning and training solutions have effective learning transfer integrated into the design and delivery, enabling us to demonstrably achieve maximum business impact and results.

STRATEGIC CONSULTANCY SUPPORT

All organisations are facing near-constant change, challenge, regulatory and compliance complexity in the area of Fire Safety and we work with you to understand the context in which your business operates. This enables us to develop an in-depth understanding of your organisation and required Fire Safety approach, together with the knowledge and skills you'll need to support it. We don't just look to design a professional services solution strategy which meets today's priorities. Instead, we work with you to think beyond the short and medium term to consider what your organisation will look like and need in the future. Hence, the Fire Safety support strategy can be agile enough to react to any predicted changes.

Additionally, we fuse our technical and sector expertise in ways to assure that the learning and training programmes we develop are directly relevant to the context of needs. These can be delivered in powerful combinations of blended, accredited or non-accredited learning and training programmes.

BESPOKE LEARNING AND TRAINING PROGRAMMES

Our extensive knowledge and understanding enables us to extend our service value into supporting and delivering the skills you need now and in the future.

Our subject matter experts are highly trained fire service and ex-military personnel. Hence, we can harness and leverage knowledge and capability, directly relevant to the context of need, for the benefit of our customers. Uniquely, we have adopted the Defence System Approach to Training (DSAT) model. This best practice model ensures and assures that our training programmes are designed and aligned to this approved and rigorously tested high Standard.

We are the only Fire Safety & Training company in the UK that offers this gold standard of training, and the ability to design and build fire service training courses with this knowledge, insight and capability, makes us the number one choice amongst training providers.

Our industry lead experts help to create impactful, high-quality bespoke programmes of learning and training experiences. Our subject matter experts have professional reputations and capabilities, proven at undertaking very senior operational fire service and military fire safety roles. All have achieved high levels of safety competencies and professional qualifications. These, together with our creative learning design, development and delivery skills ensure that our learning and training solutions will improve the individual and organisational Fire Safety confidence, capability, competence and performance required.

As one of the UK's leading professional fire safety services firms, we are able to draw on the extensive knowledge, experience and cumulative capability from our sector specialists. This means we can effectively and efficiently address all your fire safety needs contributing towards meeting both your business and learning development goals.

We ensure that what happens in the classroom and blended online, runs as smoothly as possible. We can also check how our learning is used back at the workplace with a learning effectiveness evaluation.

Our learning service centre helps resolve your learners' queries and administrative needs.

PROFESSIONAL ACCREDITED PROGRAMMES OF LEARNING DELIVERY

We are a fully accredited **Skills For Justice (SFJ) Awards Training Centre**. As a recognised SFJ Awards Approved Centre we have the experience and quality to provide the industry highest standards of training and assessment.

Our expert trainer facilitated, face to face, courses include **Fire and Rescue Qualifications**:

- ✓ Level 3 Award in Education & Training
- ✓ Level 3 & 4 Certificate in Fire Safety (Fire Auditors)
- ✓ Level 3 Award in Fire Safety Management
- ✓ Level 4 Diploma in Fire Safety (Fire Inspectors)

E-LEARNING COURSES

We have curated a number of cost effective e-learning courses in response to regular demand requests from our customers.

Fire Safety Courses available via our **Online Digital Training Academy**, covering most sectors, including the likes of Hospitality, Construction and Healthcare, and are endorsed by the Institute of Fire Engineers (IFE) and ROSPA.

Continuous Professional Development (CPD) Courses (working practices) are also available via our Online Digital Training Academy. These cover such areas as Business Skills, Health & Safety, and Health & Social Care

The Courses are highly flexible, module based, with multiple choice Q&A to both assess and reinforce learning. The content retains interest through the use of multi-media videos with a mix of instructor narrated live action, photo, computer generated images and animation.
